Quality treatment:

- Homogeneous treatment.
- Automatic spraying and movement.
- Cost savings.

Main Features:

- Automatic spraying and forward / backward motion.
- High manoeuvrability on the main path.
- Automatic hose reel.
- Safety braking system.
- Folding spraying bar.
- Spraying capability up to 4 meters high.
- 80° hollow cone ceramic spraying nozzles.
- Aluminium anti-skid platform.
- Electronic speed control.
- Smooth acceleration and braking.

Weigh and measures:

- Total Length: 1900 mm
- Chassis Width: 500 mm
- Minimum Height (lance folded): 1800 mm
- Hose length: 100 m.
- Center to center distance adaptable on request.
